### **The sport of Fencing**

Fencing is an Olympic sport where men, women and children can practice. There are 3 different disciplines (swords): Epee (combat sword), Foil (training sword) and Saber. Fencers in the Cyprus Talents Cup will use the Epee. Fencing is a fast paced sport that requires using both mental and physical abilities. One needs to be precise when using the tip of the sword as it is their only weapon. A fencer's goal is to make valid hits on the opponent's target, protecting at the same time themselves, using only his/her weapon-sword. The fencer that gets first to 15 hits or has the higher number of hits when the time expires is the winner. The hits are recorded and visible to the athletes and the spectators on an electronic board.

### **Limassol Fencing Club**

LIMASSOL FENCING CLUB was founded in 2008 with the aim of developing the Olympic sport of fencing, by attracting young people to healthy sports, and to meet their need for physical activity. The Limassol Fencing Club is member of Cyprus Fencing Federation and participates to official national and international competitions with high achievements. The full equipped and well organized fencing hall at “Spiros Kyprianou” athletic center along with well-educated trainers, has earned the trust of both parents and children. As a result, there are now around 40 young people above the age of 5 practicing fencing at the Club.
